WE ALL DESERVE TO FEEL SECURE WHERE WE LIVE, WORK AND PLAY; but in reality with thousands of Californians killed or injured from gun violence every year there is much work to be done. The Hope and Heal Fund is the only California donor collaborative that is partnering with philanthropic and community leaders to invest in proven solutions and emerging strategies to intervene, interrupt, and prevent gun violence in homes and communities.

GUN VIOLENCE AFFECTS ALL CALIFORNIANS. Every three hours someone dies from a gun shot in California — that's 3,040 people a year (2018)

10 YEARS OF GUN DEATHS IN CALIFORNIA is equal to the undergraduate population at UC Berkeley (more than 39k people)

IN CALIFORNIA, 1 out of every 2 gun deaths is a suicide

THE INCOME INEQUALITY GAP is a driving force and root cause of gun homicides

WOMEN ARE 5 TIMES more likely to die in situations of domestic violence if a gun is present

FIREARMS ARE THE LEADING CAUSE OF DEATH for black children and teens and the second leading cause of death for children and teens across all racial categories in the U.S.
California has the opportunity to become a national model of community-based, gun violence prevention efforts — but we can only achieve this with your help. With your philanthropic investment in the Hope and Heal Fund you will have the opportunity to collaborate with peers to advance the strategy for the Fund and to be at the forefront of gun violence prevention efforts in California. Please contact Brian Malte, Executive Director, at (415) 236-3317 or bmalte@hopeandhealfund.org to learn more, share ideas and offer support.
